PageStream 2.2 in 16 color mode

The new PageStream 2.2 is a work of art. The first thing you notice is the snazzy new toolbox. But beauty is more than skin deep. A screenshot cannot show you the power of version 2.2. Using a common PageStream system, text speed is improved up to 500% over the previous release. The January issue of AmigaWorld called PageStream 2.1 the Experts' Choice, what will they call PageStream 2.2?

Here's some ideas. Innovative. Fast. Professional. Solid. Workhorse. Amazing.

To further increase your productivity, try our new HotLinks Express Pack. It includes PageLiner, a feature-laden text processor, and BME, a bitmap editor. HotLinks connects these programs to PageStream for seamless desktop publishing. All for only \$99.95.

PageStream 2.2 is a free upgrade to registered PageStream 2.1 owners. It's our way of saying thank you for your patronage. With all the money this will save you, you will be able to pick up a Starter Fonts Pack for \$99.95. The eight fonts in this package will make your pages come alive.

If you haven't already tried PageStream 2.2 visit your local dealer or call us for more information.
